BRIEF DESCRIPTION OF TRAINING PROGRAMME INTELLECTUAL PROPERTY RIGHTS

PROTECT YOUR IDEA/TRADE & WIN THE WORLD

About the training

Intellectual property protection is critical to fostering innovation. Without protection of ideas, businesses and individuals would not reap the full benefits of their inventions and would focus less on research and development. Economic growth is the main objective of IPR. – IP law can facilitate economic growth by giving statutory expression to the creators' economic rights and promoting economic and social development through the fostering of Fair Trade.

From the marketing prospective and sustaining the trade, IP can help you to Enhance the market value of your business. I P can get you more income for your business through licensing, sale or commercialization of protected product / services.

I P Law is not a new law. "Literary property" was the term predominantly used in the British legal debates of the 1760 and 1770 and copyright act started in India in 1957. In the recent years, I P R management has become more important, both for industry and Universities. The main categories of I P R are:

The objectives of the programme are to bring awareness and the importance of IPR to our young entrepreneurs and research associates.

The curriculum of the two day programme :
